Wound Care
Education Institute

Be the wound care expert everyone turns to.

If you're passionate about wound care and want to stand out as an expert, WCEI helps you take the next step with advanced wound care education that's flexible, comprehensive, and nationally respected. Our courses combine current best practices, evidence-based curriculum, and professional instruction to help you build deep wound care expertise while preparing you for the National Alliance of Wound Care and Ostomy (NAWCO) or American Board of Wound Management (ABWM) credentialing exams.

Whether you prefer to learn in person or online, we have you covered with a large selection of learning options—giving you in-depth clinical knowledge that can be used in your practice immediately.

After taking our courses*

97% earned their certification

49% reported more responsibility in their current role

41% reported increased professional recognition
